# Hey, Joey!

Track 03

A baby kangaroo is called a **joey**. When a joey is **born**, it is small. It is only 2.5 cm long. It needs help to grow.

A mother kangaroo has a **pouch**. The pouch is for its joey. The pouch is on the mother's **belly**. The joey **climbs** up to the pouch. Then it goes inside.

a joey in a pouch

## Word Hunt

What is the pocket on a kangaroo's belly called? p \_\_\_\_\_

## Read & Say!

- What is a joey?
- What does the joey drink in the pouch?

In the pouch, the joey drinks the mother's milk. The milk helps it grow. It stays inside the pouch for two months. Then it goes in and out of the pouch.

After two years, the joey becomes an **adult**. It will have its own joeys. The joeys will grow in their mother's safe pouch!

## You Know What?

A red kangaroo can jump seven meters at a time!
