The Life of a Polar Bear

Can you guess this animal?

It is big and white.

It lives in the cold Arctic.

It is a **polar bear**!

Yum!
Yum!

What do polar bears eat?

They eat meat.

They hunt for **seals** on the ice.

Seal fat keeps them full of energy.

Where do polar bears sleep?

They sleep in the snow.

The snow **protects** them from the wind.

Their fur keeps them warm, too.

How do polar bears communicate?

They **touch** noses.

That means, "Can I **share** your food?"

They **wag** their heads.

That means,

"Let's play!"

Polar bears are

interesting animals!

True or False

Polar bears' fur keeps them cold.

True ☐

False ☐
